# The Practice of Economy

Is the cradle of success. The life history of every self-made man bears out unexceptionally the truth of this statement.

You cannot succeed if you are not prepared to succeed. Financial invalids never win the moneymarathon.

Hard times are an OPPORTUNITY, instead of a menace, to a sensible man with a little ready money in a good savings bank.

No need of being a miser, just use your head. Chop off the small extravagances that don't give you adequate returns for your money. You'll be surprised how much money you can save if you try without living any less comfortably.

We pay 3% interest on savings accounts and offer you every courtesy and facility.
